

Department of Psychology

Shri Govind Guru University, Vinzol - Godhra

About the Department

The Department of Psychology at Shri Govind Guru University, Godhra, is dedicated to fostering academic excellence and research in the field of psychology. Focusing on both theoretical knowledge and practical applications, the department offers a dynamic learning environment that equips students with the necessary skills to understand human behavior, mental processes, and psychological well-being.

Our curriculum is designed to integrate contemporary psychological theories with real-world applications, preparing students for diverse career opportunities in Counseling Psychology, Clinical Psychology, Organizational Behavior, Educational Counselling & Psychology, and Research. The department emphasizes experiential learning through interactive classroom sessions, hands-on training, internships, and research projects.

With a team of highly qualified faculty members, state-of-the-art resources, and a student-centric approach, the Department of Psychology aims to nurture critical thinking, ethical sensitivity, and professional competence among students. We are committed to advancing psychological science and contributing to the well-being of individuals and society.

Programs Offered

Master of Arts (M.A.) in Psychology

The M.A. in Psychology at Shri Govind Guru University is a two-year postgraduate program designed to provide students with a comprehensive understanding of psychological principles, theories, and research methodologies. The course offers both theoretical knowledge and practical exposure, preparing students for professional careers in Counseling Psychology, Clinical Psychology, Organizational Behavior, Educational Counselling & Psychology, Positive Psychology and Research. The entire course is offered in Gujarati Medium.

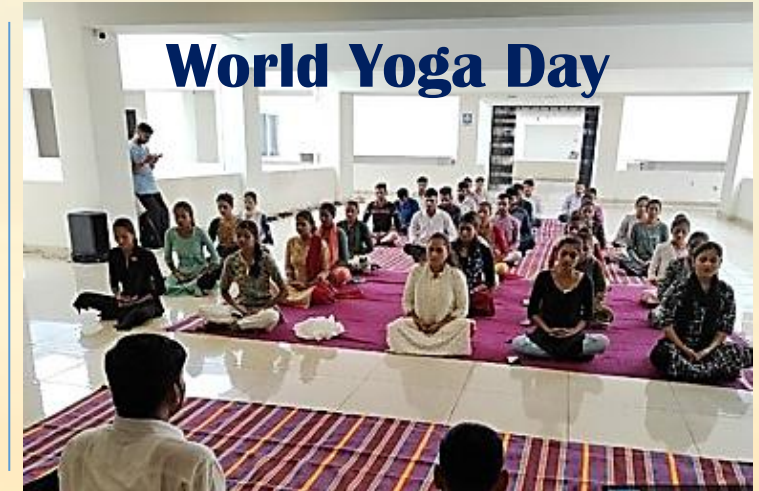

Ph.D. in Psychology

The Ph.D. program in Psychology is designed to promote advanced research and scholarship in the field of psychology. It provides candidates with the opportunity to conduct original research in specialized areas such as Counselling Psychology, Clinical Psychology, Health Psychology, Educational Psychology, and Positive Psychology. Under the mentorship of experienced faculty, Ph.D. scholars contribute to the growing body of knowledge through innovative and impactful research.
